RADD 30-Second Video Scripts

Four 30-second scripts for a credit union audit and compliance firm, each written to stay under 100 words for on-camera delivery.

Script 1: RADD Assist

Do you feel like you're wandering aimlessly in a complex maze of conflicting compliance information? Stop wasting time researching questions you'll never get a straightforward answer to. Choose the compliance experts at RADD Assist instead. They're experienced and available 24/7, via portal, to help you make informed decisions to ensure you're meeting constantly changing regulatory requirements. Equip your credit union with the regulatory guidance needed to stay compliant and avoid unnecessary risks and fines. Get in touch now to learn more about RADD Assist and how we can help you stay compliant and confident.

Script 2: Sponsor Bank Requirements

As a credit union, you should be doing everything you can to partner with a sponsor bank. Sponsor banks can thoroughly vet customers in order to mitigate your risk upfront. Their diligence prevents regulatory issues and reputation damage down the road, which saves you time, money, and headaches. But their stringent requirements are complex. That's why you need the experts at RADD LLC. They meticulously conduct financial and risk reviews so you can meet mandates smoothly. Trust RADD's excellence in audit and compliance to clear the path to sponsorship success.

Script 3: Third Line of Defense

Are you concerned about staying objective during internal auditing? Don't be. RADD Assist provides credit unions the independent assurance needed to avoid biased outcomes. Our experienced auditors objectively and thoroughly evaluate policies, controls, and processes. We identify areas needing enhancement from an impartial vantage point. With RADD as your trusted third line of defense, you'll gain transparent insights to strengthen your business practices and risk management. Don't audit yourself and risk misleading results. Our rigorous audits deliver objective assessments, so you can act decisively. Contact RADD to promote excellence through accurate, world-class internal auditing.

Script 4: Second Line of Defense

The biggest banks in the world are where they are today because they're able to manage risk proactively. RADD's second-line defense services do just that. We embed risk controls across your organization, so you can focus on growing and running your business smoothly. Our experts thoroughly assess financial, operational, and emerging risks to develop frameworks, monitoring, and key mitigations aligned to your risk appetite. We provide the expertise and oversight you need to intelligently challenge risk decisions. Contact us today to establish a critical second line of defense, and stay compliant with awareness, not apprehension.
