ACE Tree Service Leads a Thoughtful Tree Removal and Replanting Project in Birmingham, AL

ACE Tree Service responds to tree removal calls all the time, but the project you're about to learn about is extra special because it involved tree removal and replanting. The homeowner needed a hazardous oak tree removed to protect their house, but also wanted a new tree planted to carry on the old tree's meaning and provide shade for the future.

Details From the Tree Removal and Replanting Project

- **Client Profile:** Residential
- **Location:** Birmingham, AL
- **Type of Service:** Tree Removal and Replanting
- **Duration:** 8 hours
- **Service Frequency:** One-Time Project
- **Season:** Summer
- **Tree Type:** Oak Tree
- **Client Preferences:** The homeowner wanted a favorite oak that had become a threat to the house removed safely, with a new tree planted in its place.

The homeowner shared what the project meant to their family:

> *"I know that once I am gone, my house will probably be torn down. I believe that tree is what will live on, even after everything is removed. It will be my family's memorial, specifically that of my mother. It is my desire that this oak tree will live on beyond my life, that of my child, and of those that will occupy this space long after we are gone. I would love to think that children would one day play under its branches just as I did under the tree before it.*
>
> *The attached photo shows what the lot looked like when I was a child, and the photo of your team in front of the newly planted tree now stands as part of the home's history. Who knows, maybe in another 80 years the family that lives here will share their story and show this photo along with their history."*

Making Room for the Next Generation of Shade

A local homeowner in Birmingham, AL, noticed a mature oak growing too close to their home and needed tree removal services. However, the tree carried personal meaning, and they wanted something new to take its place. An arborist consultation from ACE Tree Service helped them choose a safe location for the replacement tree.

A Safe Removal Followed by Meaningful Replanting

After safely removing the tree, the crew completed stump grinding and land clearing to create a clean area for the new tree. The team performed tree planting in a location suited for healthy growth. ACE Tree Service also shared tree care tips to help the homeowner look after their new tree.

Call ACE Tree Service at (205) 332-7757 to schedule tree removal and replanting services.
