Otto Tree Service Protects an Auburn Hills, MI, Home From Falling Maple Tree Branches With Emergency Tree Services

Many yards in Auburn Hills, MI, feature large maple trees that provide summer shade, brilliant autumn color, and added property value year-round. However, sometimes those towering maples need to come down due to their growth patterns or proximity to homes or other structures. That's what happened when a local Auburn Hills, MI, homeowner reached out to Otto Tree Service for emergency tree service and tree removal.

Details From the Emergency Tree Removal Project

- **Client Profile:** Residential
- **Location:** Auburn Hills, MI
- **Type of Service:** Emergency Tree Service / Tree Removal
- **Duration:** 5 hours
- **Service Frequency:** One-Time Project
- **Season:** Summer
- **Tree Type:** Maple Tree
- **Client Preferences:** The homeowner wanted a large, mature maple removed quickly and safely after it partially failed and dropped heavy limbs onto the lawn near the home. Due to the tree's size and its proximity to the house and nearby structures, the crew had to use extreme caution to complete the removal without causing additional damage to the property or the surrounding fence line.

Responding to the Homeowner's Wishes for a Safer Yard

Because the tree had already dropped large branches, the homeowner viewed the situation as an emergency and wanted to schedule service as soon as possible. Luckily for them, Otto Tree Service stays ready to respond to these exact kinds of situations.

Upon arrival, the crew assessed the damaged maple and identified multiple unstable limbs still hanging over the yard and home. A professional arborist explained the immediate risks and outlined a clear plan for hazardous tree removal that focused on safety, control, and property protection.

Another Successful Emergency Tree Removal Project From Otto Tree Service

The team handled the emergency tree removal project by cutting the damaged maple from the top down to control weight and reduce risk. Ropes and rigging guided each section safely away from the home, fence, and nearby structures. After the residential tree removal, the crew cleared the remaining compromised wood and cleaned everything up, leaving the yard safe and ready to use again.

If you're worried about a large tree threatening the safety of your yard, home, and family, call Otto Tree Service at (248) 747-1741 to schedule emergency tree service and tree removal in Auburn Hills, MI.
