

Headline: Bestselling Author Scott Jennings Makes Construction Concepts Fun And Easy For Kids To Understand In New Children's Book

Subhead: *The Rain Won't Drain, Let's Lay A Pipe* Aims to Inspire a New Generation of Passionate Builders.

Date: SAN FRANCISCO, CA - June 23, 2023

Introduction:

Scott Jennings, PE, CEO of SJ Construction Consulting and acclaimed author of the Cathedral Termites series, is thrilled to announce the release of the third book in his beloved children's book series, *The Rain Won't Drain, Let's Lay A Pipe*. Combining engaging storytelling with insights into the world of construction and engineering, Jennings delivers a unique reading experience that is both fun and educational for children.

Body:

In *The Rain Won't Drain, Let's Lay A Pipe*, young readers join the resourceful protagonist, Ted, as he navigates a flood problem in his neighborhood. Guided by his engineer mother and construction worker father, Ted designs and constructs a drain to manage the excess rainwater in his town.

This beautifully illustrated 36-page book follows the successful releases of *No More Potholes*, *Let's Mill & Fill* and *Beams Over Streams: Let's Build a Bridge*, where Jennings has successfully managed to turn complicated construction projects into relatable, engaging, and enjoyable tales for young minds.

"I'm thrilled to continue my mission of inspiring future craftsmen and craftswomen with *The Rain Won't Drain, Let's Lay A Pipe*," says Jennings. "Seeing the joy and curiosity sparked by the Cathedral Termites series has been the highlight of this journey. I can't wait to see the reaction to Ted's new adventure!"

The Rain Won't Drain, Let's Lay A Pipe is available for purchase on Amazon now: [The Rain Won't Drain, Let's Lay A Pipe](#)

Boilerplate:

Scott Jennings is the CEO of SJ Construction Consulting and the author of the Cathedral Termites series. As a professional engineer, he combines his passion for construction and engineering with storytelling to inspire future generations to appreciate the art of building and understand complex construction projects. He believes that today's bedtime story could be the start of a child's lifelong passion and potential career.
