Subject: Picking up from LinkedIn

Hi [First Name],

It was great connecting on LinkedIn! I wanted to reach out over email about something that I have seen do wonders for teams like yours. It's called Block Time Asset Management. Ever heard of it?

If you have 15 minutes this week, I'd love to hear what you've been working on and share more about how this might fit into your goals.

Let me know what works,

Subject: Big plans for 2025?

Hi [First Name],

I wanted to quickly follow up since we connected on LinkedIn. Can you believe 2024 is almost over? Have you started thinking about what you want to tackle in 2025?

If you're focused on cutting costs, I might have some ideas that could help. Got 15 minutes this week to chat?

Looking forward to hearing from you,

Subject: I'd love to help!

Hi [First Name],

I hope you're enjoying the holiday season! Do you have any fun plans coming up?

I've been working with some killer asset management teams doing crazy smart things with blockchain, and I thought you might be interested.

If you've got 15 minutes this week, I'd love to hear about what you're working on and if there's any way I can help.

Looking forward to hearing from you,

[Your Name]

Subject: Thought I'd reach out again

Hi [First Name],

I know I haven't heard back yet, but I came across your LinkedIn profile again and thought I'd check in. It reminded me why I reached out in the first place... I'd really love to connect and explore how we might work together.

Do you have 15 minutes this week? Let me know what works for you.

Looking forward to hearing from you,
[Your Name]

Subject: Last follow-up (for now)

Hi [First Name],

This will be my last follow-up for a while, but I didn't want to miss the chance to connect. I really think Block Time Asset Management could help save your team time and significantly cut back-office costs, just like it's done for others I've worked with.

If you have 15 minutes this week, I'd love to show you how it works and see if it's a fit. If now's not the right time, no worries... I'm happy to reconnect down the line.

Thanks for considering,
