The Section 125 fully insured indemnity program is a best-kept secret that companies like McDonald's, Delta, and Taco Bell rely on to turn payroll expenses into major savings. It's approved by state insurance departments and backed by an A+ rated carrier, so you can count on it for both compliance and real savings.

When you start taking advantage of the section 125 program, your employees will receive standout benefits like hospital indemnity coverage, unlimited virtual care, and a no-cost prescription plan. These perks lead to a possible 4% to 6% increase in take-home pay, giving your employees more financial security and boosting their overall satisfaction. The best part is that all of this extra pay comes without any extra cost to you!

For employers, the savings add up fast. You could see between \$600 and \$850 in payroll tax savings per employee each year. Here are some real examples showing just how impactful this can be: A nursing home with 97 employees saved \$81,000 annually. A staffing company with 1,093 employees saw yearly savings of \$876,000, and an assisted living facility with 1,427 employees reached \$1 million in annual savings.

Best of all, the program integrates easily into your current systems without any upfront costs or complicated changes! You can start benefiting from day one without disruptions. Our team will take care of the setup and ongoing support so you can keep focus on what you do best, running a successful business.

Don't miss the chance to offer your employees more and see real savings for your business. Scroll down to learn more, or click to schedule a complimentary call today and find out how this program can start working for you!
