4	Thursday				 Discover EMDR Therapy at Rolling Hills Recovery Center Struggling with trauma or PTSD? Rolling Hills Recovery Center offers an innovative treatment: EMDR Therapy. Here's what you need to know: <i>Eye Movement Desensitization and Reprocessing (EMDR) is a psychotherapy method developed in the 1980s. It's proven effective in treating trauma and PTSD by helping individuals process traumatic events through guided eye movements.</i> How EMDR Works: The therapy involves eight phases, typically spanning 6 to 12 sessions. It includes: ● History taking and treatment planning. ● Stress management techniques. ● Targeting specific traumatic memories. ● Addressing and reprocessing these memories through bilateral stimulation.	https://www.shutterstock.com/image-photo/colorful-square-papers-wooden-white-letters-1781619272 https://www.freepik.com/premium-photo/hypnoterapist-hypnotizing-her-young-patient_1851585.htm#query=%F0%9D%90%84%F0%9D%90%8C%F0%9D%90%83%F0%9D%90%91%20%F0%9D%90%93%F0%9D%90%A1%F0%9D%90%9E%F0%9D%90%AB%F0%9D%90%9A%F0%9D%90%A9%F0%9D%90%B2&position=9&from_view=search&track=ais&uuid=939dd995-8b42-4097-a02e-e81b05c5b29f	scheduled

				● Benefits of EMDR: <i>Research shows EMDR can reduce flashbacks, sleep disturbances, depression, and anxiety. It's a valuable alternative for those who struggle with other psychological therapies.</i> Conditions EMDR Can Help With? <i>Besides PTSD, EMDR is beneficial for depression, anxiety, substance abuse disorders, and more.</i> Safety and Effectiveness: <i>EMDR is generally safe with fewer side effects than traditional medications. It effectively retains its benefits post-treatment, although some may experience temporary heightened emotions or new memories.</i> At Rolling Hills Recovery Center, our expert team is ready to guide you through EMDR Therapy, offering a path to healing from trauma. Worried about insurance? We've got you covered. Reach out to us for insurance verification and to start your journey towards recovery.
